

Customer Suggestions Regarding Library Materials

The Library welcomes expressions of opinion from the WJC community concerning materials selected or not selected for inclusion in its collections. Requests to add materials to the collection can be submitted by students, faculty, staff, and alumni of William Jewell either in written or electronic format. Each request will be handled by the subject librarian in consultation with the faculty of the department that handles the subject material requested.

Requests to remove Library materials will be considered within the contexts of the policies laid out in this document. Members of the WJC community who wish to request the reconsideration of library materials should speak to the Library Director about the materials in question.
